Throughout Australia, we specialise in providing microgrid solutions for a range of site, ranging from commercial centres to industrial depots to residential estates / communities. We offer a turnkey ...

The Australian Microgrid Centre of Excellence (AMCOE) is a not-for-profit organisation which will operate a physical facility that provides resources enabling the development and implementation of ...

These powerhouses are particularly effective for daily cycling and short-term energy shifting, making them ideal for solar-powered microgrids across Australia's sun-drenched regions.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Container scale battery storage systems for grid and industrial sites. Foton delivers safe, scalable and compliant container energy storage across Australia.

TLS Containers offers customizable industrial and commercial microgrid tied energy storage containers for various industries, including solar, wind, and microgrid.

With an extensive logistics network across Sydney, NSW, and beyond, SCS Australia delivers and installs microgrid shipping containers on time and within budget. Our experienced team handles ...

Based in Melbourne, we provide wholesale solar battery storage systems built to meet Australia's unique energy needs, climate conditions, and compliance standards. Our products are TÜV tested, CEC ...

The Regional Microgrids Program (the Program) seeks to support the development and deployment of renewable energy microgrids across regional Australia that contribute to the Program ...

10MWh Industrial Cabinet for Microgrids in Australia

Plug-and-play graphene energy container system designed for grid, partial-grid, and microgrid installations. It delivers clean, resilient, long-duration power storage without thermal risk, toxic ...
