These cabinets are constructed using high-quality materials and fortified with secure locking mechanisms, tamper-evident seals, and intrusion detection systems to deter unauthorized entry.

This design ensures that the cabinet can withstand extreme temperatures and harsh conditions, such as those found in the Sahara Desert, providing reliable power for communication base stations and remote sites.

Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets. Modular capability helps future proof your ...

Durable outdoor integrated telecom cabinet for base stations and data nodes. Provides reliable protection and efficient housing in harsh environments

Choosing the right base station equipment is essential for building a strong, reliable, and future-ready telecom network. Whether you're deploying a new site or upgrading existing infrastructure, our experts are here to ...

Indoor and outdoor cabinets tailored for your energy needs. Designed to withstand extreme conditions and ensure continuous operation. Energy storage solutions ranging from 112kWh to 481kWh for outdoor use.

Bakes battery modules, BMS, power distribution and climate/fire protection into one cabinet for plug-and-play installation and easy transport. Low-profile, space-saving design (15-50 kWh) featuring highly flexible ...

The solution adopts new energy (wind and diesel energy storage) technology to provide a reliable guarantee for the stable operation of communication base stations.

Our cabinets are built to withstand harsh weather conditions and provide excellent protection for power management systems, telecom base stations, energy storage battery systems, and radio equipment.

15mwh outdoor telecom cabinet for yamoussoukro base station

Ideal for telecom infrastructures, base stations, and internet service points, our cabinets can be specially designed with different sizes and hardware options according to project needs.
