We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

To discuss your project or request a detailed quotation, contact our engineering team: Our experts will help you design the right solar container configuration for your site.

VAC Solar specialise in the design, development and construction of containerised solar PV plants. The deployment of containerised PV plants is a fast and convenient method of deploying a new system in ...

To meet specific project requirements, solar power containers can be customized at both the system and structural levels. Configuration options may include variations in energy storage capacity, ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular design for easy ...

The 160KW Mobile Solar Container by HighJoule is built for long-term industrial use. Its 40ft frame houses 480W modules and can be deployed as a standalone generator or integrated into microgrid ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Choose from nine different system variants, including battery bank options of 24V (3K) or 48V (6K and 12K), as well as solar panel options ranging from 600W (3K) to 2,400W.

The Mobile Solar PV Container is a portable, containerized solar power system designed for easy transportation and deployment. It integrates advanced photovoltaic modules, inverters, and electrical ...

160solar container system solar container system design

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...
