From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

1MW Energy Storage System is highly integrated with lithium battery, battery management system, PCS, grounding system, power distribution system, temperature control system and fire protection ...

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO₄ batteries with high thermal stability, extensive cycle ...

Households, Schools, factories, gas stations and other commercial buildings with high energy demands can maximize energy use Energy independence and reduced grid power demand through solar PV ...

Huawei's One Site One Cabinet power cabinet solution uses a compact, high-density design to simplify site management, reduce energy use, and support sustainable operations.

A commercial energy storage system works by storing excess energy generated by the solar panels during the day in a battery storage system. This stored energy can then be used during times when ...

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage ...

Stable 1MW Output, Ideal For Industrial/Commercial Peak Shaving And Grid Load Regulation. 3MWh Capacity Supports Long-Hour Backup (Powers Medium Factories For Hours) And Solar/Wind ...

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable,

1MW Smart Photovoltaic Energy Storage Outdoor Cabinet for Power Grid Distribution Stations

weather-resistant solar power for telecom, remote sites, and microgrids.

Compatible with solar PV, diesel generators, and grid power, it provides stable energy for microgrids, remote areas, manufacturing facilities, farms, and EV charging stations.
