In the last five years or so, portable fuel-powered generators and battery-based power stations have become increasingly essential in extreme weather. But power stations (i.e., solar ...

Our patented solution addresses this head-on, by enabling high-density solar electricity generation on small footprints. By optimizing for compact areas, we make sustainable energy a viable option for ...

Our patented solar lighting solutions are 12 times more powerful than solar lights, and 80% cheaper than grid lights. APT Solar Solutions is a Limited Liability Company (LLC) incorporated in...

APT Solar Solutions is redefining the boundaries of solar energy with their pioneering three-dimensional solar module technology. On April 3rd, their team marked their official launch as a ...

Find out what APT Solar can do for you. We managed, engineered and supervised the construction of a 80kW fixed tilt PV system coupled with a 2 MWhr battery storage system for the Navy using a hybrid ...

At University of Michigan's Innovation Partnerships, a new start-up business enjoyed its moment in the sun when officials held a bell-ringing ceremony for APT Solar Solutions, a company ...

Find the 3 best solar generators for apartments and condos, from small to large, and discover how to optimize your solar power setup.

APT has the resources and expertise to provide safe, reliable, and cost-effective solutions for the collection of solar generated power for utility scale grid tie and microgrid applications.

Whether you're a landlord looking to install solar systems in your complex or a renter who wants an alternative to outlast the latest blackout, many great options are available. Here, we cover ...

APT Paralleling Switchgear and Paralleling Control Systems are able to control power generators in voltage

APT Solar Power Generation System

range of 120 V - 38 kV and up to 6000 Amps.
