Avic-tech (xiamen)electric Power Technology Co.,ltd. Founded in 2006, it is a national high-tech enterprise with more than 100 independent intellectual property rights.

[total investment 24.8 billion AVIC Lithium plans to build a new battery plant in Hefei] AVIC Lithium announced the location of its sixth battery plant. Over the next five years, the company plans to ...

To this end, in May of this year, AVIC Lithium signed an investment agreement with Wuhan Economic Development Zone in Hubei Province, planning to build a new power battery and energy storage ...

On November 8, 2021, Yu Aihua, member of the Standing Committee of the Anhui Provincial Party Committee and Secretary of the Hefei Municipal Party Committee, announced that the construction ...

By bridging the gap between academic research and real-world implementation, this review underscores the critical role of lithium-ion batteries in achieving decarbonization, integrating renewable ...

At the market level, AVIC Lithium continues to focus on the three major markets of power lithium-ion batteries, energy storage and military, and timely deploys upstream and downstream industries to ...

The products using this technology, iron-lithium support 700km battery life, ternary support 1000km battery life, are expected to be on the market in June 2022.

For many years, lithium-ion batteries have powered almost everything around us -- phones, laptops, electric vehicles, and energy storage systems. They became so common that most people stopped ...

The construction output will reach more than 100GWh this year. Facing the future, the company plans to produce 300GWh+ in 2025. Liu Jingyu said that facing the future TWh era, AVIC Lithium proposed ...

AVIC Lithium Battery makes energy storage batteries

According to the official information disclosed by AVIC Lithium Battery, the products using this technology have a ternary lithium battery system cell energy density of 300Wh/kg, a pack energy density of ...
