What is AES doing in California?

AES completed construction of the 1,000MW Bellefield 1 project in California. The project includes 500MW of solar, 500MW/2,000MWh of storage.

What makes AES unique?

At AES, we combine deep industry expertise with an entrepreneurial culture to push the boundaries of what's possible in energy. This includes pioneering utility-scale battery storage and Maximo, the first-of-its-kind, AI-enabled solar installation robot solution. At AES, our people are our energy.

Does AES use AI-enabled robotics to install solar panels?

To assist in construction, AES used Maximo, its 'AI-enabled robotic system', which the company says improved the safety, speed and accuracy of solar module installation. Maximo is a robotic arm that performs solar panel installation, in what AES claims is half the time and cost.

Does AES work with Amazon?

Bellefield Project Highlights AES' Track Record of Working with Corporate Customers
ARLINGTON, Va., June 11, 2025 /PRNewswire/-- The AES Corporation (NYSE: AES) today announced that it has completed construction of the 1,000 MW Bellefield 1 project, under a 15-year contract with Amazon.
