Where can I buy a solar generator?

Get the EcoFlow solar generator at Amazon (1 solar panel), Lowe's (solar panels sold separately), The Home Depot (solar panels sold separately), or EcoFlow (1 solar panel).

Are solar generators a good option for your home?

Solar generators are quiet, lack any harmful fumes and exhaust, and are completely renewable. With a handful of well-placed solar panels, you can provide a FREE supply of backup power for your home. Today, solar home backup power is within reach of everyone.

Does the Generac battery generator come with solar panels?

The Generac battery generator for home use doesn't come with solar panels, but we charged it using our own EcoFlow 400-watt portable panels. With the EcoFlows, it went from 28 percent to 100 percent in just under 5 hours, though charging time will vary based on panel capacity and weather conditions.

What is a solar backup generator?

Solar backup generators provide a portable solar power supply. Instead of having a permanent solar installation in your home, complete with roof panels and a large battery bank, a solar generator packages everything in one relatively small unit. Solar backup generators have five main components: Solar panels to capture sunlight.

Discover how Bauer Solar combats counterfeit solar modules and takes legal action to protect the industry from fake products.

Shopping for the best backup generator for home use? Don't buy until you consider these top picks - with reviews & buying guide.

The best solar generators are quiet, green solutions to powering up during power outages. See our top picks after extensive testing.
