What is a folding container?

A folding container is a resin-made box that can be compactly folded when not in use. Folding reduces the size to about 1/3 to 1/4, so can be stored compactly during storage and transportation. In addition, containers can be folded and assembled easily and quickly, and can be stacked in both folded and assembled states.

What types of bulk containers does lag offer?

With the silo pressurised container, the low-pressure cubic container and the unpressurised box container, LAG offers a complete range of bulk containers. All our containers are manufactured in accordance with recognised standards (ISO, UIC, CSC & PED).
