What is a Bess container?

What Is BESS Container? The BESS container refers to an integrated energy storage system contained within standard shipping containers at a scale and speed of deployment. The HJ-ESS-DESL series BESS container with a capacity of 372 - 1860 kWh utilizes advanced liquid-cooling technology to maintain the best temperature for all the battery modules.

What is a Bess energy storage system?

The modular BESS container design allows accurate capacity-scaled operation for peak shaving and energy arbitrage. The containerized energy storage system incorporates advanced bidirectional inverters that efficiently convert AC power to DC and store it in the battery.
