The oft-delayed power development plan (PDP) is expected to be completed within this year following a revision, said Prasert Sinsukprasert, energy permanent secretary.

Paddle Power (PDP) is making its debut at the expo, highlighting its remarkable progress in the energy storage sector through continuous technological innovation.

The project is mainly invested by State Grid Integrated Energy and CATL, which is the largest single grid-side standalone station-type electrochemical energy storage power station in China so far.

With the ASEAN Smart Energy & Energy Storage Expo 2026 set to take place in March 2026 in Bangkok, Thailand, this flagship event will focus on solar PV, energy storage, batteries, power systems, and smart ...

Northwest Bangkok has emerged as a hotspot for photovoltaic (PV) energy storage power stations, combining solar panels with advanced battery systems. This region's abundant sunlight and growing energy demands ...

The project is not intended for commercial purposes. It is scheduled to supply electricity to Mae Moh mining system by the end of 2025.

This article explores the current status of independent energy storage power stations in Bangkok, key trends, and what the future holds for this critical industry.

Shared energy storage power stations--the kind of innovation that could finally crack Southeast Asia's renewable energy puzzle--are gaining traction. But why now, and what makes this model so uniquely suited ...

The Energy Regulatory Commission of Thailand (ERC)'s clean power auction is currently organized on a volume-competitive basis, where several power plant developers are bidding for the highest quota on a fixed power ...
