Will Bolivia build a lithium battery plant in China?

La Paz (AFP) - Bolivia said Tuesday it had signed a \$1 billion deal with China's CBC, a subsidiary of the world's largest lithium battery producer CATL, to build two lithium carbonate production plants in the country's southwest.

Which companies have been shortlisted for lithium pilot plants in Bolivia?

Yacimientos de Litio Boliviano (YLB) has shortlisted four companies for lithium pilot plants in Bolivia's salt flats. The bidders are China's CBC, Italy's Protecno, France's Eramet, and Australia's Eau Lithium. These companies were selected based on technological maturity, financial propositions, technical parameters, and project execution time.

Where are Bolivia's lithium plants located?

Bolivia's state-owned Bolivia Lithium Deposits (YLB) said the plants -- one with an annual capacity of 10,000 tons of lithium carbonate and the other of 25,000 - would be situated in the vast Uyuni salt flats. Lithium, nicknamed "white gold," is a key component in the production of batteries for electric vehicles and mobile phones.

Can Bolivia tap the world's biggest lithium deposits?

Salar de Uyuni. Stock image. Bolivia is stepping up efforts to tap the world's biggest lithium deposits, readying deals with new investors to build processing plants despite low prices and growing opposition from lawmakers and citizen groups.
