Notice Inviting Bids: Brasilia Capital of Solar Lighting Project Visit Project Page

Brasilia Capital of Solar Lighting Project Visit us for more details.

As Brasilia embraces renewable energy, the Brasilia Solar Power Generation System has emerged as a game-changer. With abundant sunlight and growing environmental awareness, solar solutions are ...

Law No. 6891/2021 has stipulated that no less than 50% of energy consumption of the public buildings and services in the FD shall be generated by renewable energy by the end of 2026, and no less than ...

The project comprises i) retrofitting 300,000 existing lamps with LED technology in the public lighting system in the FD; ii) building a solar photovoltaic plant with a generation capacity of 162.5MW in the FD.

By the end of 2018 private residential rooftop systems had an installed capacity of 2,307 MW, businesses rooftop systems 1,662 MW whilst solar parks amounted to 444 MW.

The Project aims to reduce the energy consumption from the public lighting in the Federal District (FD) by approximately 50% through the replacement of existing metallic vapor lamps ...

The project comprises upgrade of public lighting system in the Federal District Brasilia by replacing existing lamps with light-emitting diode (LED) technology and construction of a large scale ...
