ALTEO implemented its first 6 MW output/4 MW capacity energy storage unit in Budapest in 2018, on the grounds of the Zugló Power Plant.

Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Historically, Hungary's regulatory framework did not provide clear guidelines for the integration of co-located BESS projects. This lack of specific regulation created uncertainty for investors and developers, hampering ...

Energy storage capacities will double over the next year, with the aim of providing at least 1 GW of storage capacity by 2030. With public funding totalling 33 billion forints (approx. 80 million euros), storage ...

Teplöre is proud to announce the successful commissioning of its first Battery Energy Storage System (BESS) project in Budapest, Hungary. This milestone marks a significant step in our European ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal power ...

The facility sits on the outskirts of Budapest, strategically positioned to serve both urban energy demands and regional grid stabilization. Operational since 2022, it covers 12 hectares and integrates solar panels with ...

The Swiss company MET Group has taken a key step in its decarbonization strategy with the commissioning of the largest battery energy storage system in Hungary.

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Százhalombatta, located close...

Budapest energy storage plant overdrawn

E.ON Hungaria has unveiled a state-of-the-art storage system in Soroksár (23rd district of Budapest), doubling its local capacity.
