-----  
What is Australia's 32 GW capacity investment scheme?

The Australian federal government's 32 GW Capacity Investment Scheme (CIS) is already bearing fruit, with a competitive tender seeking 600 MW of energy storage capacity in Victoria and South Australia attracting 19,000 MW of project proposals. From pv magazine Australia

What is Australia's biggest energy tender?

Australia's biggest tender delivers 15 GWh of battery energy storage systems, boosting grid reliability and advancing the 2030 renewable target.

How is energy stored in Australia?

Currently storage of electrical energy in Australia consists of a small number of pumped hydroelectric facilities and grid-scale batteries, and a diversity of battery storage systems at small scale, used mainly for backup. To balance energy use across the Australian economy, heat and fuel (chemical energy) storage are also required.

Which battery energy storage projects are winning bids?

The winning bids include several battery energy storage systems (BESS) exceeding 500MWh in capacity, with at least two projects reaching the 1GWh threshold. The government has released the complete list of 16 successful projects (below). The projects range from 100MW to 450MW, with storage durations between 2 and 4 hours.

The Australian federal government's 32 GW Capacity Investment Scheme (CIS) is already bearing fruit, with a competitive tender seeking 600 MW of energy storage capacity in Victoria and ...

For most Australian households and businesses, lithium-ion provides the best balance of safety, durability, and cost-effectiveness. The Role of Government Policies in Shaping Australia's ...

Australian state of New South Wales to sign 14 GWh long-term energy storage contract Australian Energy Market Operator (AEMO) Services has announced that nearly 14 GWh of long ...

Australia energy storage market is valued at 4.72 GW in 2025, projected to reach 19.81 GW by 2034, growing

at 17.28% CAGR by 2026-2034.

The Capacity Investment Scheme (CIS) is a Commonwealth Government vehicle to underwrite new renewable energy and storage assets via Capacity Investment Scheme Agreements ...

Australia's CIS redesign reflects a maturing energy procurement framework that prioritizes speed, transparency, and systemic value. By coupling procedural reform with a national tender ...

The challenge What is energy storage? Energy storage secures and stabilises energy supply, and services and cross-links the electricity, gas, industrial and transport sectors. It works on ...

Australia's CIS redesign reflects a maturing energy procurement framework that prioritizes speed, transparency, and systemic value. By coupling procedural reform with a ...

Australia's Capacity Investment Scheme (CIS) has awarded 4.13GW/15.37GWh of energy storage capacity in its third tender round.

Commercial Battery Storage Leaders in Commercial Energy Storage, Setting the Standard for Performance and Sustainability Enquire Now Industry Leaders Technical excellence, nationwide ...

Australia's biggest tender delivers 15 GWh of battery energy storage systems, boosting grid reliability and advancing the 2030 renewable target.
