Construction work will include the development of 10 MW of solar power along with an energy storage system with two-hour lithium-ion batteries with a capacity of approximately 13 MW / 26 MWh, as well ...

Founded in 2002, Huijue Group is a high-tech service provider integrating the integration and application of intelligent network equipment and intelligent energy storage equipment.

As we approach Q4 2024, plans are underway to connect this system to Yunnan Province's mega grid through HVDC lines. This could turn Laos into Asia's first transnational storage hub.

Huijue provides reliable and intelligent power supply systems for communication base stations, data centers, industrial facilities, and other critical infrastructure. As digital transformation accelerates, our ...

This series of new energy intelligent micro-power station uses renewable and cyclic natural energy generation as the main power supply, and has a hybrid photovoltaic system of solar and/or wind ...

The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency.

The grid-connected solution by Huijue Group integrates distributed power sources (such as photovoltaic, wind power, and energy storage systems) into the public power grid.

Let's face it - traditional power grids are like one-way streets in an era of self-driving cars. Enter the Vientiane Huijue Energy Storage Power Station, a 500MWh behemoth that's rewriting the ...

Founded in 2002, Huijue Group is a well-known manufacturer of energy storage equipment and energy storage systems, providing customers with optimal energy storage ...

Central Asia Huijue Power Energy Storage Project is connected to the grid
