Developer Atlas Renewable Energy has inaugurated the 800 MWh battery energy storage system (BESS) plant in María Elena commune, in the Antofagasta region.

The SCF is providing Technical Assistance to a large-scale Battery Energy Storage System (BESS) in northern Chile's Antofagasta region to address solar energy curtailment and improve grid stability.

Chinese companies have in recent years built, or announced plans to build, Chile's longest power line, solar plants and wind farms, while in battery storage, solar giant Trina has launched three ...

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable alternative for Chilean ...

Chile's Environmental Assessment Service (SEA) and the National Electric Coordinator approved the project after a technical review, which confirmed its grid connection plan and compliance with safety and ...

Ensuring projects are paid for injecting power into the grid during peak periods has supported growth, and ambitious battery energy storage system (BESS) targets are now being pursued to...

Construction of the standalone project is expected to start in the first quarter of 2025 and powered as soon as Q1 2026, and will be one of the first projects of its kind to reach commercial operations in Chile, ...

The Desert BESS Project, developed by Atlas Renewable Energy, stands as the first large-scale, stand-alone battery energy storage system in both Chile and Latin America. With transmission lines at overcapacity and ...

In March 2024, Atlas Renewable Energy announced it has signed a power purchase agreement (PPA) with

Chile solar container communication station Battery solar container energy storage system Project

Chilean mining giant Codelco for the supply of 375 GWh of energy per year, to be generated by a ...
