Energy company Generadora Metropolitana--owned by Chilean developer AME and France's EDF--starts building Dune Plus, a large-scale energy storage and solar PV complex that ...

Chile will need new renewable energy storage systems to replace its current backup capacity of coal-fired plants and natural gas-powered combined cycle turbines and improve the ...

Developer Atlas Renewable Energy has inaugurated the 800 MWh battery energy storage system (BESS) plant in Mar#237;a Elena commune, in the Antofagasta region.

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage.

Solar power combined with battery energy storage is at the forefront of Chile's recent generation growth.

Renewables developer Pacific Hydro has started commercial operations at its 293MW/220MWh solar-plus-storage project in Chile.

Both located in the heart of the Atacama Desert, the two facilities together will reach a total capacity of 452 MWp and a storage capacity of 2.5 GWh, ensuring an annual output of ...

The project has a scale of 221MW/1200MWh, equipped with over 452,000 solar panels and 267 sets of the BYD MC Cube energy storage systems. The Quillagua Power Station is located ...

Chile Energy Minister Diego Pardow was present at the inauguration of the 200 MW/800 MWh BESS del Desierto, a project its developers describe as the first large-scale standalone energy ...

A joint venture (JV) between EDF and developer AME has begun construction of large-scale battery and solar photovoltaic (PV) projects in Chile, with 2GWh storage capacity.
