The Colombian government has issued Decree 0972 to encourage solar energy adoption, allowing electricity consumers to install photovoltaic generation systems of up to 5 kW. The ...

Nexans has been present in Colombia since 2008 and in April 2022 completed the acquisition of the premium Colombian cable manufacturer, CENTELSA, with the firm purpose of ...

Colombia will equip more than 1 million low-income households with solar systems to replace subsidies, cut bills and add capacity to the grid.

Colombia launches Gecelca Solar to accelerate clean-energy transition in the Caribbean. With an initial 650 MW, Gecelca Solar will drive renewable-energy deployment and lower energy ...

Atlas Renewable Energy recently launched the Shangri-La solar project, which is located in Ibagué, Tolima. It has a capacity of 201 MW, making it one of the largest in Colombia.

This funding is earmarked for the development, construction, and operation of the 201 MW Shangri-La solar PV power plant located in Colombia's Tolima department.

The National Energy Plan (PEN) 2022-2052 defines Colombia's energy policy and includes five different scenarios that consider solar and wind energy, both for grid-connected and off-grid areas.

Colombia is making a significant leap in renewable energy with a \$2.1 billion initiative to install rooftop photovoltaic systems for approximately 1.3 million low-income families.

With this project, Enel Colombia now operates four solar parks, including El Paso, La Loma, and Fundación, with a total installed capacity of nearly 700 MWac, representing over 30% of ...

Colombia s latest solar power generation system

Colombia's national grid is getting stronger in 2025 with 17 new energy projects, mostly solar, boosting capacity and resilience. Discover how distributed generation, solar power, and ...
