Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

Originally launched for limited markets in 2021, the 40-ft ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

GSL Energy's CESS-125K232 is a high-performance, liquid-cooled, AC-coupled container energy storage system designed for industrial and commercial applications. Equipped with advanced ...

Imagine a power solution that arrives pre-built in a shipping container, ready to plug and play within hours. That's containerized generator technology--a game-changer for industries needing reliable, ...

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, options and ...

A Containerized Energy Storage System (ESS) is a modular, transportable energy solution that integrates lithium battery packs, BMS, PCS, EMS, HVAC, fire protection, and remote ...

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

At MODS, we design and fabricate high-performance generator and power units built from shipping containers. Our solutions provide reliable energy generation and storage for industries, construction ...

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% ...

Containerized AC power generation

Designed with advanced LiFePO₄ (LFP280Ah) battery cells, this modular, AC-coupled container solution delivers 125kW continuous power output and 232.9kWh usable energy, meeting the demands of ...
