From March 23 to 26, 2025, the 15th China International Energy Storage Conference and Exhibition was grandly held at the Hangzhou International Expo Center.

Summary: Discover how Dongya photovoltaic energy storage colloidal batteries revolutionize solar power systems. This guide explores technical advantages, real-world applications, and market trends ...

In June 2024, GREENWAY initiated a 1MW/2.15MWh commercial and industrial storage project at its headquarters.

BYD has unveiled a new DC energy storage system with the world's largest single-unit capacity of 14.5 MWh, raising the bar in the rapidly evolving utility-scale storage market. The system, ...

With over 15 years of technical research in energy storage system, BYD develops a series of standard containerized BESS according to different discharging span in 1, 2, 3 and 4 hours.

Over the years, the company has been pursuing the business purpose of "honesty and pragmatism, win-win development, excellence and continuous improvement", and is committed to providing customers ...

BYD has unveiled a new DC energy storage system with the world's largest single-unit capacity of 14.5 MWh, intensifying competition in the fast-growing utility-scale storage market. The...

BYD unveils the world's largest single-unit DC energy storage system, setting new benchmarks in clean energy and large-scale storage solutions.

Each unit offers a minimum capacity of 14.5 MWh - over twice the typical 6-7 MWh found in most large systems. Housed in a standard 20-foot container, the battery delivers 10 MWh ...

Dongya Energy Storage Unit 15MWh

It packs 14.5MWh of energy storage capacity into one unit, equivalent to 10MWh in a 20-foot area. That is far higher than the 6-7MWh products that have been announced over the past year, ...
