Are solar panels taking off in Africa?

The first evidence of a take-off in solar in Africa is now here: The last 12 months saw a big rise in Africa's solar panel imports. Imports from China rose 60% in the last 12 months to 15,032 MW. Over the last two years, the imports of solar panels outside of South Africa have nearly tripled from 3,734 MW to 11,248 MW.

Are solar panels going up in South Africa?

In the last two years, the imports of solar panels have tripled outside of South Africa. They rose from 3,734 MW in the 12 months to June 2023, to 11,248 MW in the 12 months to June 2025. The increase in imports is more than a single month spike. Monthly imports jumped to a record in December 2024, but have consistently elevated since.

Who sells solar panels in East Africa?

With a strong presence in East Africa, Davis & Shirliff offers a range of solar solutions, including panels, inverters, and water heating systems. The company is known for its quality products and comprehensive after-sales services. 8. Go Solar Systems Ltd (Kenya)

Does Africa import solar panels from China?

This report presents Ember's analysis of Africa's imports of solar panels from China. The Chinese solar panel export data gives valuable insights because it includes imports up to June 2025, at a monthly granularity, and for every country in the world. The data can be found in Ember's China Solar Export Explorer.

Kenya is the largest importer of solar panels in the Eastern African (EA) region. In terms of capacity, the country imported 495 megawatts of solar panels in the 12 months to June 2025. This ...

The analysis shows that Africa's solar panel imports set a new record in the 12 months to June 2025, reaching 15,032 MW - a 60% increase on the 9,379 MW imported in the preceding 12 ...

Imports of panels surged in 2025, showing how demand is rising even in smaller economies. Below is the list of the ten African nations that recorded the largest solar imports in 2025. ...

Energy-starved countries on the continent have reluctantly turned to coal and gas for decades. Cheap Chinese solar panels are now finally changing the calculus.

# East Africa Solar Panels solar Panels

With a strong presence in East Africa, Davis & Shirliff offers a range of solar solutions, including panels, inverters, and water heating systems. The company is known for its quality ...

Africa's solar imports soared 60% to 15 GW in 2025, fueled by China, reshaping power and cutting diesel reliance.

About This report presents Ember's analysis of Africa's imports of solar panels from China. The Chinese solar panel export data gives valuable insights because it includes imports up to ...

Africa Solar Imports reached record 15GW in 2025, fueled by Chinese PV panels, transforming energy access and solar projects across the continent.

African countries imported a record 15,032 MW of solar panels from China in the 12 months to June 2025, a 60% jump from the prior year. In May alone, imports hit 1.57 GW --roughly ...

This technical brief examines the critical intersection of Africa's growing solar PV investments and climate resilience. With nearly 600 million people in Sub-Saharan Africa lacking ...
