The "BluePlanet" liquid-cooled storage cabinets, which offer an AC-side efficiency exceeding 90%, are designed to address challenges in regions with unstable grid infrastructure.

As Rwanda accelerates its renewable energy adoption, outdoor energy storage cabinets have become critical infrastructure for solar farms, telecom towers, and rural electrification projects.

In Africa recently completed the deployment of two Enershare EnerBrick commercial high-voltage energy storage cabinets (215kWh and 100kWh), marking the official launch of the country's outdoor high-voltage ...

The first units of the "BluePlanet" liquid-cooled outdoor storage cabinet are en route to Nairobi and Kisumu, Kenya, introducing this state-of-the-art technology to the African market.

Highly integrated, it houses energy storage components, BMS, PCS, air conditioning, fire protection, EMS, and supervision systems, simplifying functionality. Safety is paramount, utilizing LFP cells and ...

The first units of the "BluePlanet" liquid-cooled outdoor storage cabinet are en route to Nairobi and Kisumu, Kenya, introducing this state-of-the-art technology to the African market.

Photovoltaic energy storage cabinet with air cooling optimized for safe, off-grid outdoor use.
