While the project has been under intense scrutiny from community members and local officials about fire risk, air pollution, landslides and access issues, Compass Energy decided to ...

On Sept. 11, the San Diego County Board of Supervisors unanimously rejected a proposed moratorium on battery energy storage systems, which had been suggested as an option by ...

So, you've probably heard the news: a major Italian energy storage project suspended its operations last month. Cue the collective groan from renewable energy enthusiasts.

The CEC acknowledges and accepts the applicant's request. As such, the Compass Energy Storage Project is suspended, and CEC staff will discontinue any work on the project until such time as the ...

Virginia-based East Point Energy confirmed that it has canceled its proposed 250-megawatt battery energy storage system that was to be built near Comfort. East Point spokesperson Catherine...

A report has found numerous US IRA-driven projects announced or under construction have been placed on hold or cancelled, including the battery industry, due largely to an EV slowdown.

LPO can finance short and long duration energy storage projects to increase flexibility, stability, resilience, and reliability on a renewables-heavy grid.

Over 20 GWh of planned energy storage cell production capacity for 2028 has been canceled this year, according to reports compiled by the US Energy Council (CEC). These projects ...

But as more energy storage is added, residents in some places are pushing back due to fears that the systems will go up in flames, as a massive facility in California did earlier this year.

But the fire is raising questions in other California communities about big battery storage facilities with

Energy storage project suspension

residents in at least four counties opposing new plants.
