Discover all statistics and data on Global solar PV supply chain now on statista !

Compared with the previous year, the total shipment volume of the top ten manufacturers in 2023 was 413 GW, while that of 2024 reached 502 GW. Despite a 22% annual growth rate, sluggish demand ...

o SPV Market Research reported that 2024 global PV shipments were approximately 770 GW--an increase of 37% from 2023, with 90% of the increase coming from China. o 98% of PV ...

This special report examines solar PV supply chains from raw materials all the way to the finished product, spanning the five main segments of the manufacturing process: polysilicon, ingots, wafers, ...

Explore the top 10 global PV module suppliers of 2024. JinkoSolar leads with 92.9 GW, followed by LONGi, JA Solar, and Trina -- the new "F4" giants.

Explore the top PV module suppliers based on shipment volume from 2022 onwards. Discover the leading players shaping the solar industry landscape.

Meeting international energy and climate goals requires the global deployment of solar PV to grow on an unprecedented scale. This in turn demands a major additional expansion in manufacturing capacity, ...

Gokin Solar Co., Ltd. has reached a major milestone by earning its first-ever placement in the Solarbe Global PV Module Shipment Rankings 2025, compiled by Solarbe and Solarbe ...

Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies accounted for 62% of global production ...

Risen Energy, DAS Solar and Yingli Solar are in the race for 9th to 10th place with shipments of 14GW to 15GW in the first three quarters of 2024. Competition for the 9th and 10th ...
