Our solar-powered refrigerated containers are ideal as self-sufficient solutions for medicine, perishable goods or technical equipment. Our systems are in use 24/7 and have been developed especially for ...

Solarfold(TM) features a patented dual-rail guiding mechanism, 40% higher energy density, automated deployment in under 6 hours, and superior weather resistance. Unlike traditional solar containers, ...

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in construction, events, ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Our solution? Solarators(TM)--sustainable, off-grid refrigeration powered entirely by the sun. Designed for high-performance, temperature-controlled cold storage, Solarators™; operate as efficiently as ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

Our off-grid refrigerated containers use solar energy to maintain ideal cooling conditions, ensuring freshness and reducing waste. Equipped with high-performance compressors and evaporators, our ...

Our professional-grade solar-powered refrigeration system offers off-grid cold storage to even the most remote communities in the world. The Aldelano Solar ColdBox TM can help humanitarian ...

All-encompassing, fast, and resilient solution for disaster preparedness. A ready-to-install 2-3 kVA power

High-Temperature Resistant Off-Grid Solar Container for Hospitals Southern Europe

module with 4-6 solar panels and lithium battery storage. Our turnkey water module is a water ...

Ideal as a solar-powered cold storage container for frozen meat, poultry, fish, and processed foods, the unit maintains consistent sub-zero temperatures during transit or temporary warehousing.
