---

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below.

Get detailed specs and pricing for Sunmaygo's solar containers. Compare models, battery options, and calculate ROI. Find the best mobile solar power system for your needs.

Wondering what a solar container system costs? Explore real-world price ranges, components, and examples to understand what impacts total cost--and if it's worth the investment.

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

While container prices stabilized, the ripple effect continues. A standard 40HC container that cost \$3,500 pre-2023 now averages \$4,200 - and that's before adding solar components.

Solarabox Mobile Solar Container brings green energy wherever you need it. The integrated solar system delivers 400-670 kWh of energy daily. Thanks to foldable solar arrays, the container is ...

Mobile Solar Containers typically range from 20KW to 150KW in solar generation capacity, with scalable battery storage options to ensure continuous power supply as needed.

The entire container and floor are closed-cell spray foamed. It's insulated very well: it's framed and has cedar planks for interior walls. The wind turbine will not be included unless customer is interested for ...
