Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest.

The Swiss company MET Group has taken a key step in its decarbonization strategy with the commissioning of the largest battery energy storage system in Hungary.

Data and information about power plants in Hungary plotted on an interactive map.

Located at the Dunamenti Power Station in Székesfehérvár, the new facility boasts a capacity of 40 MW with 80 MWh of storage, capable of operating on a two-hour cycle. The project is ...

MET Group put into operation a battery electricity storage plant with a total nominal power output of 40 MW and a storage capacity of 80 MWh (2-hour cycle). It is the latest example in a series ...

With this latest BESS plant, which went into operation, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal ...

In Hungary, the Mobile Power Plant market is witnessing growth driven by the demand for temporary and emergency power generation solutions in remote locations or during grid outages.

MET Group has launched Hungary's largest battery energy storage system at the Dunamenti Power Station, a 40 MW / 80 MWh plant supporting national energy transition goals.

The following page is a full list of power stations in Hungary that are at least 50 MW in capacity. The list is based on information from the Hungarian grid operator MAVIR. [1]
