What are GCL solar panels?

GCL is a company that formed the GCL System Integration Technology Co. to facilitate their manufacturing of solar panels. They have been supplying solar panels in Australia for over two years and aim at dominating the Australian Solar market. GCL solar panels are the focus of this discussion.

Are GCL solar panels good quality?

GCL solar panels show some promise of being good quality (particularly the Saturn and Gemini series) through their ranking as a top performer by PV Evolution Labs independent testing. Unfortunately at this stage their offering in Australia (if it is currently available) lacks good customer support.

Are GCL solar panels available in Australia?

While in the Australian market some of GCL's solar panels are approved by the Clean Energy Council - none of the major distributors list their solar panels as available. As at June 2021 none of the installation companies on Solar Choice's platform have GCL solar panels listed as one of their offerings.

What is a GCL solar warranty?

The product warranty is designed to cover manufacturing faults in the panel that leads to damage or malfunction and is typically 10 years for most solar panel manufacturers. All GCL Solar panels offer a 10 year standard product warranty which is effectively the minimum expectation of the solar panel market.
