Plans to buy a solar farm to curb CO2 emissions have been abandoned by Manchester council. New documents from the authority reveal that bosses made a "non-binding" offer to purchase ...

But where are these farms? How much energy do they produce? And what do the next 10 years look like? This updated 2025 guide combines an interactive map, regional insights, and policy ...

Leveraging its expertise in solar energy, Shawton Energy proposed a 68.73kWp system designed to meet the unique energy demands of Dakota Manchester. And the comprehensive solution promised ...

Once complete, Medebridge Solar Farm will host 104,000 solar panels across 175 acres of low-grade agricultural land, the equivalent of around 70 football pitches. The site will also create a ...

It will be the second largest floating solar structure in the world after a scheme in Japan and will cover an area of 45,500m² at Godley reservoir in Hyde. It is hoped that the project will be completed in 12 ...

It is expected that the 400ft high array of dark blue solar panels, which will work regardless of the weather, will stand out on the Manchester skyline and even become a tourist ...

may be different, but key to reaching the 2038 target is that the decarbonisation of heat happens, whether this is supported by the introduction of large-scale green generation or not.

The largest publicly owned solar farm in Greater Manchester is ready to be switched on next month and will eventually provide enough electricity to power 2,000 homes.

Construction of Medebridge commenced in April 2024, with energisation expected in autumn 2025. Once complete, Medebridge Solar Farm will comprise 104,000 solar panels across 175 acres of low ...
