The array, designed by Florida-based D3Energy LLC, is expected to generate up to 2 megawatts of energy, enough to power the water treatment plant, according to Lima Utilities Director ...

Why should you choose a modular solar power container?Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power ...

By this time next year, a 3,444-panel solar array will be floating on the southern half of the reservoir with the goal of producing enough energy to power the nearby water treatment plant.

From grid support to renewable integration, Lima Outdoor Power BESS delivers adaptable solutions across industries. The future isn't just about generating power - it's about storing it smartly.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

The nearly five-and-a-half-million-dollar floating solar field will generate around two megawatts of power. The city pays around 200 thousand dollars a year to power the water treatment ...

Whether you need utility-scale solar projects, commercial solar installations, or mobile solar solutions, GETON CONTAINERS has the expertise to deliver optimal results with competitive pricing and ...

This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

On October 23rd, the City of Lima broke ground on a new floating solar array, which will use clean energy to save money for ratepayers and taxpayers.
