Dedicated to providing customers with high and low voltage control cabinets, explosion-proof cabinets, PLC system development, low-voltage components, and automation solutions.

The Vertiv Liebert® ITA2 UPS delivers economical, efficient, and reliable three-phase power for critical loads from 5 to 40 kW, and up to 80 kW with parallel systems.

Dual DSP design provides stable and reliable performance. Reliable parallel connection capability allows for convenient power expansion, supporting up to 12 module parallel connections.

It offers seamless integration with various mainstream battery brands and technologies, providing flexibility and reliability. Ideal for projects requiring efficient power management and space-saving ...

From benchtop and modular power supplies to rack-mounted industrial power subsystems, AMETEK Programmable Power is a leader in designing and manufacturing precision, programmable, and ...

Maintenance bypass cabinet for complete isolation of the UPS during service operations.

The MT Series delivers 150 to 250 kW of programmable DC power per floor-standing cabinet, using high-frequency IGBT current-fed power processing and integrated AC input breakers for robust, high ...

A space-saving, scalable and flexible device that's as easy to deploy as it is to manage, it's the perfect three-phase white or grey space solution for today's data center. Lowest TCO (total cost of ownership) .

The X90-5S is a scalable modular online double conversion UPS that protects critical data and equipment from power problems while supplying clean and reliable network grade power.

The TLE Scalable series UPS provides industry-leading reliability, efficiency, clean input performance, and

Manufacturer of 150kW Communication Power Supply Cabinets for Mining

unity power factor at the output with the ability to scale from 40kW to 150kW vertically.
