-----  
Will PG&E's new Community Microgrids address wildfire resiliency?

In March 2025, PG&E committed up to \$43 million to fund nine new community microgrids in the North Coast region. PG&E argues that this project provides a unique, fully sustainable solution to address power resiliency amidst the growing challenges of wildfire risk in California.

What is a Calistoga microgrid?

Serving approximately 1,600 PG&E customers in and around downtown Calistoga, the 293 megawatt hour (MWh) microgrid system enables the isolated Calistoga community microgrid to maintain power during safety shutoffs, delivering at least 48 hours of continuous energy supply with a peak power output of 8.5 megawatts (MW) during PSPS events.

Does PG&E have a microgrid?

PG&E has deployed 13 distribution microgrids since 2021 to support communities affected by Public Safety Power Shutoffs (PSPS), with Calistoga being the largest and first fully renewable system. These microgrids help keep communities and essential services--like fire stations, medical facilities, and grocery stores--powered during outages.

What is a 293 MWh microgrid?

The 293 megawatt hour (MWh) microgrid system enables the isolated Calistoga community microgrid to maintain power during these necessary safety shutoffs, delivering at least 48 hours of continuous energy supply with a peak power output of 8.5 megawatts (MW) during PSPS events.

This source-grid-load-storage integrated project imposes stringent requirements for grid-forming energy storage solutions and represents a significant milestone in advancing efficient and ...

MAN Energy Solutions supplies turn-key microgrid systems, specializing in hybrid generation, large-scale storage, and grid balancing. Their projects address resilient energy challenges in industrial, ...

Energy Vault, a provider of grid-scale energy storage solutions, and Pacific Gas and Electric Company (PG&E), announced the completion and commercial operation of the Calistoga ...

# Microgrid energy storage companies announced

Energy Vault and Pacific Gas and Electric Company announced the successful completion and commercial operation of the Calistoga Resiliency Center, a state-of-the-art hybrid ...

Energy Vault Holdings Inc. (NYSE: NRGV) ("Energy Vault" or the "Company"), a leader in sustainable, grid-scale energy storage solutions, today announced the ...

Explore 10 new microgrid companies from 770+ entrants, offering power generation, microgrid integration platforms, energy storage & more.

WAUKESHA, Wis., Aug. 5, 2024 /PRNewswire/ -- Generac Power Systems (NYSE: GNRC), a leading global designer, manufacturer and provider of energy technology solutions and other power products, ...

World's First Microgrid-in-a-Box Sets New Standards for Energy Independence and Local Manufacturing Brisbane, AUSTRALIA - 2 June 2025 --China's Nebula Electronics Co., Ltd., ...

Energy Vault Holdings Inc., a provider of sustainable, grid-scale energy storage solutions, and Pacific Gas and Electric Company (PG& E), a subsidiary of PG& E Corp., have ...

Energy Vault Holdings Inc. (NYSE: NRGV) ("Energy Vault"), a leader in sustainable, grid-scale energy storage solutions, and Pacific Gas and Electric Company (PGE), a subsidiary of PGE ...
