What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Can solar tiles be used on a roof?

Solar tiles are made to complement flat concrete tile profiles and mix in with the roof plane. They are also suitable for restoring structures in historic or conservation-protected regions because they may use more of the roof's surface to produce the most electricity.

Which roof shingles are compatible with solar tiles?

Asphalt shingles, the most common roof, are compatible with various solar tile systems. In addition, the old shingles can be blended with solar tiles to create a seamless appearance. Another important factor to consider while selecting solar tiles is the state of your roof.

Solskifer is solar roof tiles that are installed like a standard roof. The appearance is based on traditional Norwegian slate, sourced directly from Norway.
