What is a lithium-ion battery charging and storage cabinet?

These innovative cabinets create a safer environment in which workplaces can charge and store their li-ion cells. Storemasta's lithium-ion battery charging and storage cabinets provide a cool, dry and secure space for batteries to be housed and recharged.

Are lithium battery charging cabinets safe?

Our lithium battery charging cabinets provide a safe,compliant solution for charging and storing lithium-ion batteries in the workplace. Designed and manufactured in Australia,these cabinets reduce the fire and safety risks associated with lithium batteries by combining active cooling,secure storage,and spill containment in one durable unit.

Are flammable goods cabinets suitable for lithium-ion batteries?

No- regular flammable goods cabinets are not designed for lithium-ion battery risks. The unique dangers of thermal runaway,hydrogen gas emissions,and extreme temperatures require specialised containment solutions. For first-time buyers wondering about the differences,check our battery charging cabinet compliance guide.

What is a battery cabinet?

A battery cabinet is a particular type of storage cabinet that reduces the risks associated with lithium-ion batteries. These innovative cabinets create a safer environment in which workplaces can charge and store their li-ion cells.
