What is rack space rental (server colocation)?

Rack space rental, also known as server colocation, is the provisioning of a client's servers/computer equipment in a colocation provider's data center.

What is rack rental hosting?

Rack Rental Hosting is a service that provides customers with dedicated space within a data center to house their own servers and IT equipment. The rented rack is exclusively for the client's use, offering a secure, controlled environment with reliable power, cooling, and high-speed connectivity.

What is rack rental hosting & cabinet colocation?

Rack Rental Hosting and Cabinet Colocation are two highly effective solutions for businesses and individuals looking to host their IT equipment in a secure, reliable, and professional environment. Rent a full or partial rack that is dedicated to your equipment only, ensuring no shared space or interference from other clients.

How much does server colocation cost?

Single server colocation is popular for businesses seeking secure server hosting in a data center environment. Server colocation typically costs between \$79 and \$599 per month, depending on the provider and colocation cost requirements. Full rack deployment costs may include charges for space, power requirements, and bandwidth usage.
