What is Saudi Arabia's round 7 solar and wind RFQ?

The Round 7 solar and wind RFQ is a milestone in Saudi Arabia's clean energy journey, reflecting both its commitment to decarbonization and its role as a global energy leader.

How many solar PV IPPs are there in Saudi Arabia?

The round five solar PV IPPs took the total capacity of publicly tendered renewable energy projects in Saudi Arabia to over 10,300 MW. Solar PV IPPs account for 79%, or about 8,100 MW, of the total capacity. Four wind IPPs account for the remaining capacity. SPPC is procuring 30% of the kingdom's target renewable energy installed capacity by 2030.

How much money is invested in Al-Sadawi solar project?

The company stated that investments in the four projects amount to around SAR 8 billion (\$2.13 billion). The Principal Buyer launched the Request for Proposals (RFP) for projects with a total capacity of 3,700 megawatts on February 8, including: - Al-Sadawi Solar Photovoltaic (PV) Project with a capacity of 2,000 megawatts.

Where are the PV plants located in Saudi Arabia?

The tendered PV plants include the 2 GW (AC) Al Sadawi plant in eastern Saudi Arabia, the 1 GW (AC) Al Masa'a project in northern Hail province, the 400 MW (AC) Al Henakiyah 2 plant in western Madinah province, and the 300 MW (AC) Rabigh 2 array in western Makkah province.
