From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

Can your cabinets maintain thermal stability when cooling lines shift 15mm? Will battery management systems recalibrate after directional force impacts? These are the questions reshaping our industry's ...

For Optical Distribution Frame installations, DCX Seismic Cabinets are fully configurable, front-access cabinets that serve as a high-density fiber interconnect or the main building block for a large fiber ...

We can provide users with full-scenario lithium battery systems, and provide customized lithium battery solutions to high-end users. Click the link below to download technical documents. ScandPoint ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Our storage systems feature seismic-resistant, moment-resisting reinforcements, offering the strength and flexibility to evenly distribute seismic forces and absorb energy without collapsing.

With renewable energy adoption skyrocketing, integrated energy storage cabinet design has become the unsung hero of modern power systems. These cabinets aren't just metal boxes; ...

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet.

This energy storage cabinet supports both on-grid and off-grid configurations, with harmonic distortion $\leq 3\%$. It complies with international standards such as IEC/EN62109, IEC/EN62477, providing reliable ...

Seismic-resistant photovoltaic integrated energy storage cabinet for ships

The Z4-Series SeismicFrame™ Cabinet System delivers robust seismic protection for critical infrastructure in Zone 4 seismic zones, meeting Telcordia GR-63-CORE requirements.
