Here, we provide comprehensive information about large-scale photovoltaic solutions including utility-scale power plants, custom folding solar containers, high-capacity inverters, and advanced energy storage systems.

Developed by Qair, a French renewable energy company, the floating solar project is expected to be commissioned in 2026 and will connect to the 33 kV grid infrastructure of the Public Utilities Corporation ...

The solar plus energy storage project is funded with a AED-31-million (USD 8.4m/EUR 7.3m) loan from Abu Dhabi Fund for Development (ADFD) and equity from the local Public Utilities Corporation (PUC).

As the first IPP utility-scale project in Seychelles and one of the largest floating solar PV projects in Africa, it represents a significant milestone for the region.

Qair is an independent renewable energy company developing, financing, building, and operating solar, wind, waste-to-energy, storage and green hydrogen production assets.

Through its investments in solar and battery storage projects across multiple islands, SPS continues to play a pivotal role in supporting the nation's sustainability journey and reducing its reliance on ...

Today, our mtu EnergyPacks are delivering dependable battery energy system storage in the Seychelles, where rising sea levels and increasingly extreme weather events threaten the existence of their small island idyll.

The Seychelles Energy Storage Station isn't just another infrastructure project - it's the backbone of an island nation's quest to marry sustainability with reliability. Let's unpack how this Indian Ocean paradise is ...

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry solutions, ...
