From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

They transform solar-sourced DC into AC and store unused energy in high-performance battery packs, providing clean, renewable backup energy to mission-critical telecom equipment.

KPLC will implement Stand Alone Solar Photovoltaic Systems with Battery Energy Storage to support the provision of electricity services to community facilities (schools, health centres and ACC offices) in remote ...

In view of the above problems, how to provide a photovoltaic energy storage cabinet with a small single cabinet body and good heat dissipation is a technical problem to be solved by...

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO₄ batteries with high thermal stability, extensive cycle life (up to 6000 ...

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other components can be ...

Photovoltaic energy storage cabinet with air cooling optimized for safe, off-grid outdoor use.

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet.

Integrated PV and storage system with super wide PV input voltage; Small footprint and IP54 protecting grade

Single-phase Kenyan photovoltaic energy storage cabinet for sports stadiums

for outdoor installation. Safe & Reliable High-performance battery cell, meet IEC/UL/GB standard; Advanced ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.
