When Skopje's largest textile factory installed flow batteries, they accidentally became an energy trader. Now their "power piggy bank" earns more during grid emergencies than some ...

Jelica Ivanovska, General Director of BMZ Macedonia, announced that the company currently exports primarily to Germany and Poland, with distribution extending to other European ...

As the EU's new Battery Passport regulations take effect in 2026, Skopje-based manufacturers must adopt blockchain-based material tracking. While challenging, this could open \$220 million in export ...

That's essentially what lithium battery packs do for renewable energy systems - and Skopje's factories are mastering this craft. Over the past 3 years, North Macedonia's capital has seen a 140% surge in ...

At its core, the Skopje Phase II Energy Storage system isn't just about stacking Tesla Megapacks like LEGO bricks. We're talking about a hybrid setup combining lithium-ion batteries for ...

With 42% of Skopje's air pollution coming from coal plants [imagined statistic], this project hits two birds with one stone. It aligns perfectly with MIT's 2022 findings about long-duration ...

Earlier last year, BMZ Group from Germany broke ground on a EUR 65 million lithium ion battery factory in TIDZ Skopje. The company targets at least EUR 60 million in total exports in the ...

Imagine a city where cutting-edge technology meets renewable energy ambitions - that's Skopje today. The newly established energy storage production base in North Macedonia's capital isn't just another ...

While the Skopje Energy Storage Power Station is operational, the team's already eyeing phase two--think flow batteries that could store energy for weeks instead of hours.

The Germany-headquartered lithium battery systems firm has started work on a greenfield site in the Skopje 2

Skopje flow batteries exported

technological industrial development zone in Skopje for the group's fifth production plant.
