Last week, Slovenia announced a public call for non-repayable financial aid to support the procurement and installation of battery storage units for existing solar power plants used for self-supply.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

The off-grid version consists of a Solarfold container which, in conjunction with a suitable additional storage container, is not connected to the public power grid and functions completely autonomously.
