How much does an off-grid solar system cost?

An off-grid system costs between \$45,000 and \$65,000, with an average price closer to \$55,000. Cost varies based on your system size, type, and energy needs, as well as the components you choose. How long do off-grid solar systems last? An off-grid system can last 25 years or more with proper maintenance.

What is an off-grid Solar System?

An off grid solar system is a standalone power generation setup that operates independently from the electrical grid. Unlike grid-tied systems that can sell excess power back to utilities, off-grid systems store all generated electricity in batteries for use when the sun isn't shining. The system consists of four main components working together:
