Install light poles with a minimum size of 1.5 inches and a maximum size of 3.5 inches. Please note that the thickness is 0.5mm. The solar mounting bracket can hold up to 150 pounds. The max weight is 150 lbs. The solar light mounting bracket is used in outdoor lighting, we do not recommend you ...

Solar Light Installation in A Nutshell
Assembly
Is Maintenance needed?
In Conclusion
Solar street lights are designed to be essentially maintenance-free. However, in certain regions with extreme conditions, some level of maintenance is required to ensure the proper function of the lights. These regions are typically where there is a risk of dust, snow, or ice covering the solar panels and thus reducing the power of the lights. In r...
