Who makes solar LED street lights?

Anern has a professional solar LED light factory to conduct quality production of our wholesale solar LED street lights. The composition of solar LED street lamps is of LED light source, solar panel, solar battery, controller, street light pole and auxiliary materials, etc. Solar LED street light uses the sun's energy as a light source.

What is wind solar hybrid street lighting?

Wind solar hybrid street lighting is an intelligent and complete stand-alone LED street lighting system.

How solar LED street light works?

Solar LED street light uses the sun's energy as a light source. During the day, under the control of the intelligent china solar controller, the solar energy panels will absorb the solar energy into electrical energy. When the smart controller detects light down to a specific value, control of the battery will power the LED light source.
