Elevate performance and security with our Hybrid Energy System and Intelligent Management. Explore modular outdoor base stations for reliable high-capacity operations.

Telecom Networks: Ideal for powering medium- to large-scale telecom stations in off- grid areas. Other Applications: Suitable for communication base stations, smart cities, transportation, and power ...

This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

Micro solar container power station energy management system A highly integrated and intelligent hybrid power system that combines multi-input power modules (photovoltaic, wind energy, rectifier ...

This solution utilizes HuiJue"s self-developed intelligent hybrid energy control system, integrating photovoltaic power generation, lithium-ion battery storage, and emergency diesel generator backup ...

The HJ-SG-R01 is designed to integrate multiple green energy sources such as solar, wind power, and diesel generators. This makes it ideal for remote areas in Australia where grid connectivity is limited.

It is used in scenarios such as communication base stations, smart cities, transportation, power systems and other edge sites to provide stable power supply and optical distribution networks.

EK-SG-R01 is a large outdoor base station with large capacity and modular design. This series of products can integrate photovoltaic and wind clean energy, energy storage batteries, and configure a ...
