EcoDirect designs and supplies solar + battery projects in Micronesia. Our team has the tools and experience to get your next project designed and delivered.

Implementing these tips will help you navigate the solar panel installation process in Micronesia successfully. By leveraging expert advice and making informed decisions, you can ...

The introduction of this paper provides an overview of the Federated States of Micronesia and seeks to describe the regional drivers for renewable energy and its nexus with climate change, energy ...

Micronesia's solar journey isn't just about kilowatts - it's about creating energy-resilient communities. From smart microgrids that 'learn' local usage patterns to solar-powered desalination systems, these ...

The Federated States of Micronesia are investing in solar micro-grids and battery energy storage systems as well as capacity building to increase self-sufficiency and reduce emissions.

New grid-connected solar generation and battery storage systems in Chuuk and Pohnpei will help FSM meet its goal of 70 percent renewable electricity by 2030, while cutting greenhouse gas emissions ...

A tender is open in Micronesia for the engineering, procurement and construction of hybrid solar minigrid systems at three villages on the Fefen Islands. The closing date for applications ...

The project aims to increase solar construction, creating both mini-grids and home systems. It also aims to strengthen the older grid's infrastructure to make them more resilient to ...
