Outdoor weatherproof cabinet design provides a higher level of safety performance for home ESS. The battery modules are equipped with an automatic fire extinguishing device to prevent fire hazards.

Liquid cooling all-in-one solar battery storage system integrates advanced cooling technology with high-efficiency energy storage. 100kw 200kw lithium solar battery designed for seamless solar integration, ...

By employing door-mounted integrated air conditioning, it doesn't take up space within the cabinet. This improves the available cabinet space, enhances the integrity of the top structure, and ensures better ...

Energy-efficient solar-powered refrigeration solutions designed for modular, off-grid walk-ins and remote cold storage operations.

It is an autonomous, solar-powered cooling system that can be integrated into various agricultural value chains. Our solution can store agricultural products such as fruits, vegetables, herbs, seeds, and ...

Unlike traditional refrigerated trailers or diesel-engine cold rooms, this container integrates solar PV modules, an MPPT-controlled battery bank, and a high-performance refrigeration compressor into ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

The Sunway 50kW/100kWh Outdoor Energy Storage System integrates high-performance lithium iron phosphate batteries, modular PCS, intelligent energy management, and a robust power distribution ...

Our innovative modular design caters to diverse application needs, offering eco-friendly, high-yield solutions. Our mission: to green every watt of electricity generation and maximize every watt's value, ...
