The Solis SOLIS-25K-5G is a 25kW three phase inverter, which has a triple MPPT design with a precise algorithm and integrated DC isolator switch. Operating with 98.8% maximum efficiency, this unit has ...

The Solis SOLIS-25K-5G is a 25kW three phase inverter, which has a ...

Solis 5G Inverter Solis-25K-5G. Recommended max. PV power: 37.5 kW. Weight: 45 Kg.

The Solis 25K-5G combines high 25 kW output and three MPPT trackers, enabling flexible load distribution across different strings. The inverter supports a wide input voltage range, making ...

Features: 4 MPPT design with precise MPPT algorithm, effectively reducing string mismatch 8 strings intelligent monitoring, Smart I-V Curve Diagnosis supported 30% DC overload, 13A input for each PV ...

This inverter is suitable for any project you want to tackle, with a number of 3 MPPT and 6 string inputs. Therefore it can handle a wide range of solar panel configurations.

5G Three Phase Inverter SOLIS-25K-5G is designed for PV installations up to 33 kW with the possibility of division into 6 independent strings. 98.8% max. efficiency, 4 MPPT design with precise MPPT ...

Recommended max. PV power. Yes (1) (1) Activation required.

The Solis 25K-5G combines high 25 kW output and three ...

Max. efficiency 98.8% Wide voltage range and low startup voltage 3/4 MPPT design with precise MPPT algorithm THDi
