With ongoing deployment of variable renewable energy technologies, such as solar and wind power, the opportunities for energy storage projects will increase. Long-term plans to liberalise ...

The Electricity Generating Authority of Thailand (EGAT) plans to invest some 90 billion baht to build three pumped-storage hydropower plants, an EGAT deputy governor said.

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, but this may see ...

Electricity Generating Authority of Thailand (EGAT) plans to build three pumped storage power plants (PSPPs) with the use of existing dams. One of these dams is located in the ...

To mitigate the impact of intermittent wind and solar power generation, the Electricity Generating Authority of Thailand (EGAT) plans to invest 90 billion Thai baht (approximately 2.6 ...

The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a 90-billion-baht investment. This effort aims to ...

The Electricity Generating Authority of Thailand (EGAT) has announced plans to develop three pumped storage power plants (PSPPs) at existing dams in Chaiyaphum, Kanchanaburi, and ...

This project aims to serve as an energy storage system to ensure the security of the country's power system and support the transition toward rising renewable energy in the future.

This tropical paradise isn't just about pad thai and full moon parties anymore - it's becoming Southeast Asia's new energy storage powerhouse. With renewable energy integration ...
